Dear Mr. Eby,

Last year I sent you a letter, a copy of my book, Heidi Dawn Klompas: Missed Opportunities, and a draft copy of The Wrongful Death Accountability Act, regarding the Family Compensation Act's unfairness to the bereaved families of children, seniors, and people living with disabilities.

Our group, The Wrongful Death Law Reform Society of B.C., respectfully requests a meeting with you and the Premier, if possible, to discuss why this province needs to replace the Family Compensation Act with a Wrongful Death Accountability Act.

I sent the same package to each of the new and re-elected NDP and Green Party MLAs and received a few responses. Each response was positive in nature and each suggested that we meet with you to move this new law forward.

We shall make ourselves available for a meeting at your convenience. I hope to hear from you soon.

Sincerely,
Catherine S. Adamson
President,
Wrongful Death Law Reform Society of B.C.
